

TECHNICAL DATA SHEET

Name 2 x 4 Anchor Point

Part No. 23-426

Material 430 Stainless Steel Gauge 14

Dimensions 301.04 x 54.7 x 50 mm

Weight 0.23 Kg

Min. Tensile Strength 5000lb (22.5 kN)

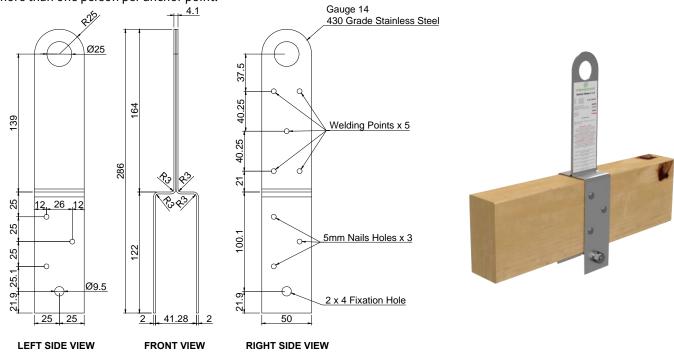

Fixation Bolt 5/16-18 x 2-1/4" grade 8

w/lock nut

Stabilization Teko Nails 1-1/4 x 6

DESCRIPTION

The 2x4 Roof Anchor is a permanent fall protection anchor to be fixed to wood or steel framed top chords or other framing members. To prevent leaks, we provide our anchor point with PVC flashing system and cover cap for the stem. Our 2x4 Anchor is rated for one person in Fall Arrest or Fall Restrain with a maximum combined weight of 340 lbs (154 kg). It is forbidden to attach more than one person per anchor point.

STANDARDS AND REQUIREMENTS

All the systems manufactured by Primeline Tools Inc., under its brand Primegrip, are designed to meet and exceed the requirements of:

OSHA 1910.66 ANSI Z359.1-2007 / ANSI Z359.6-2016 CSA Z259.15-15

OSHA 1926.502 A10.32-2012
