

KEY FEATURES

- **Non-penetrating design** — no drilling or damage to parapet walls
- **Adjustable clamping mechanism** to fit a wide range of parapet widths
- **High structural capacity** suitable for safety-critical guardrail systems
- **Fast installation and removal**, ideal for temporary or permanent use
- **Integrated post receiver** for secure guardrail post attachment
- **Durable powder-coated finish** for corrosion resistance and long service life
- **Modular component**, compatible with straight runs, corners, and terminations

TECHNICAL SPECIFICATIONS

Parameter	Description
Product Type	Parapet guardrail clamp
Application	Non-penetrating parapet-mounted guardrail systems
Clamp Type	Mechanical adjustable clamp
Adjustment Method	Threaded spindle with manual tightening handle
Post Connection	Integrated square post receiver
Mounting Method	Mechanical clamp (non-penetrating)
Finish	Industrial powder coating
Material	Structural carbon steel
Wall Protection	Integrated contact pads to prevent surface damage

SAFETY & COMPLIANCE

When installed as part of a complete guardrail system, this parapet clamp is intended to help meet or exceed applicable workplace safety requirements, including:

- OSHA guardrail requirements
- CSA workplace safety standards
- Provincial and local building and safety codes

(Final compliance depends on parapet condition, wall thickness, system layout, and installation practices.)
